I set

Download and Install Dell Support Drivers For Windows Operating Systems (Windows XP, Windows Vista and Windows 7). Find a driver for your Dell printer or.Wood-Elk Prairie Archeological District The Wood-Elk Prairie Archeological District is a nationally recognized historic district in Saint Paul, Minnesota, United States. It was designated a National Historic Landmark in 1964 for its strong association with the early history of Saint Paul. Description and history The Wood-Elk Prairie Archeological District is a roughly rectangular area of natural grass prairie in downtown Saint Paul. The district includes the site of the 1856 Minnesota constitutional convention that created the Minnesota Territory; it is the only intact landscape of early Minnesota that remains. The grass is the native South Dakota prairie grass. It was historically part of a larger, undisturbed prairie region that extended from about Park Street on the west to the Mississippi River on the east. The district was surveyed in 1955, and, in July 1957, marked with over 500 metal markers that were numbered based on the streets of Saint Paul, depicting different artifacts that have been recovered from the site. The markers were originally installed by the Minnesota Historical Society but were later removed by the Federal Highway Administration because they were considered unsightly.
