Masters and Minions is a roleplaying game book based on the iconic heroes and villains of the 5th Edition of the D&D game. It's our first product for 2019 and our first release in over a year, and we are really excited about it! Our team comes from a background of writing and designing video games, which has given us insight into the challenges a video game GM faces. As roleplaying game GMs ourselves, we know how long it takes to prep. We know from experience that game prep is one of the hardest parts of running a game. Our goal with Masters and Minions is to take an existing roleplaying game and give you new content and mechanics to make the game run smoother, and to make it easier to prep for a game! DAISE: JUNGLE! (Apr. 2019) What You Need DAISE: Jungle! is the second book from an Indie Studio initiative announced back at PAX Unplugged. There are three books we plan to release for this initiative, each of them focusing on a different genre of roleplaying games. For full details about all three books and how to pre-order them check out our Indie Studio Launch announcement here. Here's a quick overview of the first part of the initiative, DAISE: Jungle!: Hard Fantasy meets City of the Sun in this beautifully illustrated, action-packed Roleplaying Game. With the time of the light-hearted, old-school conventions of Fantasy pushed forward into the 20th century, DAISE: Jungle! brings a fresh breath of life to the roleplaying genre. An ancient evil returns to the jungle, under the cover of night and the claws of the past. There's glory to be won by the strongest… but there will be no easy victories! Release Date: April 2019 Requirements: Fantasy Grounds V3.5.x About The Game Get Stuffed!: Jungle! is a new, action-packed roleplaying game based on a new setting. In the world of DAISE: Jungle!, people still live in the shadow of the past, where the cities of the ancient light still rise out of the jungle canopy. But the jungle, the heart of the world, is really a place of darkness, where heroes are tested, and danger lurks. Your hero is a powerful warrior, cast into the jungle by the world's greatest heroes from the past.

What's new:

 — **The Doctor Tries to Heal a Teenage Friend's Depression In two dramatic hours, the Doctor — AKA Matt Smith, AKA the mysterious man we saw in full Doctor Who form this summer on Sundays — steps into the role of a writer, a teacher, an athlete, and a protector of the downtrodden for a heartfelt story. Here are some spoilers. Please take them very, very seriously. The beginning of the episode, in which a lonely kid overhears another child refer to him and his best friend as "those people who live on the hall," could have shined a light on the darkest side of everyone's childhood—but in this case, that light is parlouring the way through a forest of haunted woods and pitch-black tunnels, which is at first far more interesting to me than it is to this young kid. And at first, you think that this kid is in danger. But it turns out he isn't. The final moments, however, are anything but dull or bloodless. This is the fantasy we're all feeling deep down. This isn't boring documentary-on-television — this is a rush of passion and humanity that can't be recreated by Minority Report's Daniel Craig or Homeland's Damian Lewis. But this is the distant echo of it as the Doctor finds himself at a T.A.R.D.I.S.-hosting convention in the far flung future, with a psychiatric convention happening right around the corner. Doctor Who is back — and you just don't know it. It takes a while for it to reveal itself, and episode two of series six is sure to tell us that in a matter of seconds. Let's hope we like the new series' slow pace. So the TARDIS is led to the current of a young girl seeking treatment for her mental illness. She's also very ill — she looks like she's about 10 years old, but with a very adult illness — and she's in great distress because of how her family treats her. She asks her dad to take her to a psychiatric convention, but when you hear the answers she gives him ("It's a hospital for crazy people!") you realize that if she does go, it's not going to be a pleasant, quick experience.
